PERFORMANCE ADVANTAGE CO.

TOOL MOUNTING SOLUTIONS WORLDWIDE

Company Overview

Performance Advantage Company (PAC), established in 1992, is a privately owned company which manufactures and markets high quality tool mounting brackets. PAC's primary market is the Fire Industry providing specialty tool mounting solutions for fire apparatus. Other markets include the Military, Law Enforcement, EMS, Utilities and Homeland Security.

Performance Advantage Company is located in Lancaster, NY, a suburb of Buffalo and sells its products direct or through a worldwide network of dealers.

Products

The products PAC offers are designed to mount life-saving tools safely and securely. Versatile and flexible mounting options provide the most efficient and accessible solutions for tools and equipment. Whether new or in-service vehicles, PAC products can be customized for individual needs and requirements.

PAC utilizes the best possible materials and manufacturing methods which result in long lasting service. PAC products are tested to the highest standards and are compliant with **National Fire Protection Association (NFPA) 1901** standards and **MIL-S901D** military shock specifications.

If any PAC product fails under normal use it is replaced, free of charge.

Service

Performance Advantage Company is proud to provide the best possible customer service. PAC maintains a large inventory to ensure that most orders are fulfilled quickly. Knowledgeable sales, engineering and technical support, installation and training representatives are available to assist customers with their needs.

TESTING AND CERTIFICATION

A variety of PAC products are tested and certified to meet and exceed the NFPA 1901 9G impact standard.

PAC's NFPA Compliant products have been tested and certified at the Akron Rubber Development Laboratory, Akron, Ohio.

For a list of our 9G Certified Products or a copy of PAC's Certificate of Compliance, please contact us at 888-514-0083.

MILITARY GRADE B SHOCK TESTING

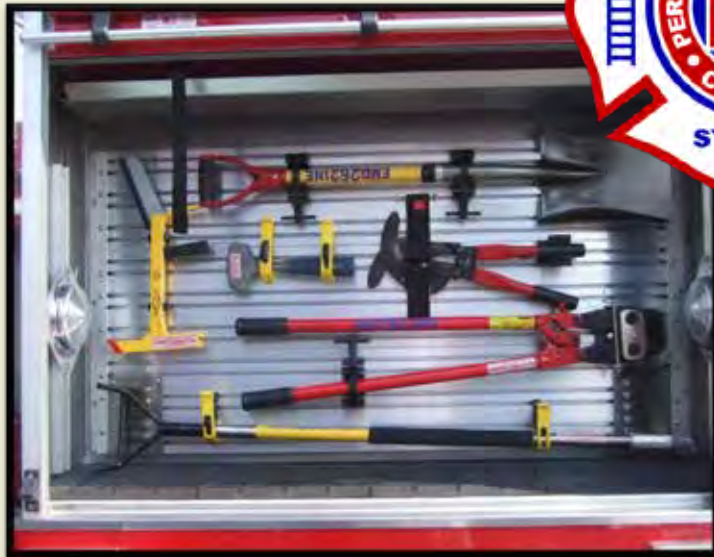

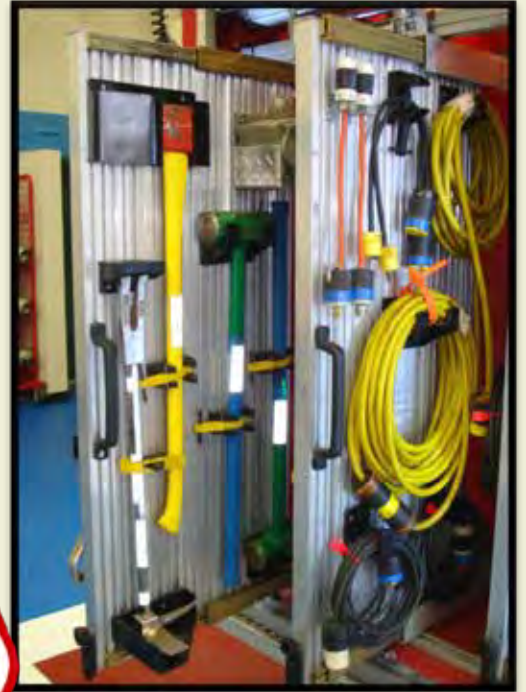

To service the equipment mounting needs of the United States Military, it was necessary for PAC to submit the products under consideration to a very demanding testing scenario. As you might expect, the environments that the U.S. Military operates within presents operational demands like no other industry. PAC subjected many of their products (as specified) to a rigorous and high intensity set of Shock Test requirements. The performance of these products would have to be proven under shock impacts ranging from a low end standard of 100 G-Forces, to in excess of 150 G's. These testing requirements establish the benchmark for specified usage of our products in applications ranging from Damage Control Stations onboard Aircraft Carriers and Destroyers, to tool mounting applications on Armored Personnel Carriers and Humvees. In every sequence, PAC products met or exceeded these performance standards. As a result, PAC has now become the "go to" company regarding tool and equipment mounting for the U.S. Military.

The PAC TRAC Family of products are designed to provide a unique and versatile mounting surface for tools and equipment.

PAC TRAC boards have special grooves or channels which allow the assembly of tool boards and the mounting of brackets and equipment.

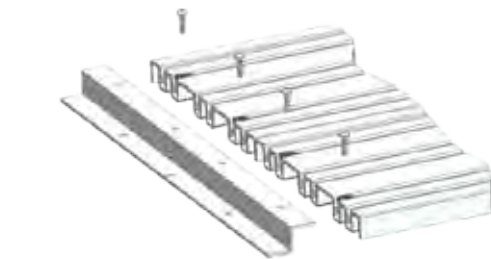

PAC TRAC boards are extruded from 6063-T5 aluminum and available in standard lengths of 50", 70" and 120". Boards are available in width increments of 3-3/4", 5-3/4" and 8-5/8".

The Pac Trac family of extrusion is NFPA 1901 Impact G Force & MIL Grade B certified as a mounting structure for testing tool brackets.

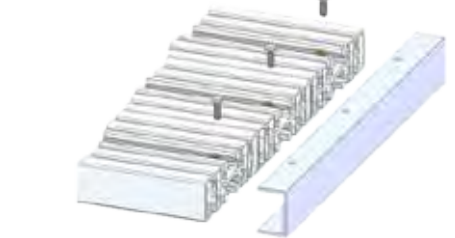

ASSEMBLY METHODS

Assemble tool boards with **Z-Mount** (P/N 7001 and 7001D)

Z & U Channel kits come in pairs AND include hardware. Choose your board type and the number of sections. There is a corresponding frame kit to make your custom toolboard assembly simple!

Assemble double sided tool boards with **U-Channel** (P/N 7009)

ATTACHMENT METHODS

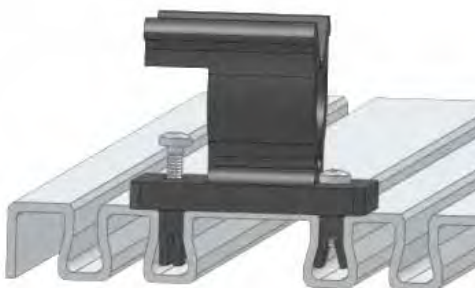

SCREW MOUNTING WITH Z-MOUNT

TOOLBOARD ASSEMBLIES

BRACKET MOUNTING METHODS

Trac Lok Inserts (P/N 7016)

PAC brackets can be installed without drilling holes. Brackets can be relocated, removed or reoriented easily. Brackets are attached to PAC TRAC products with PAC Trac Lok inserts or optional PAC channel nuts¹. For heavy duty applications use optional Steel Uni-Strut channel nuts¹.

Channel Nuts (P/N 3023 & P/N 3024)

¹ Mini(7050), Dual(7020) & Double Dual Trac (7040) only

PAC organizes your gear. We let your crew run efficiently so you can save lives.

Our professionals will work with your Truck Dealer, Fire Chief, Technician or Truck Committee to develop the layout strategy that meets your needs.

Our products can be installed at the OEM of your choice OR can be installed on your existing truck. PAC supplies to OEMs, Used truck dealers, and aftermarket installers. Get inspired by these actual BEFORE and AFTER photos!
