DISCONTINUED PRODUCTS

- **PAC 1003 Toolok has been discontinued.**
See "New Products" for our NEW Toolok-HD.
- There are **limited quantities** of the 1080 Soft Mount available. We have introduced a new item, P/N 1022, Ram Base Mount. This mount is double sided to allow support for hydraulic rams and struts on one side and jacks and struts on the other side. When the 1080 Soft Mount inventory is gone, the new 1022 Ram Base Mount will take it's place.
- There are also **limited quantities** of the 1010 8# Sledge Pocket and K5010 8# Sledge Pocket Kit available. We have introduced two new products, P/N 1010-12, Sledge Hanger Pocket and P/N K5010-12, Sledge Hanger Pocket Kit, to take their place once the old inventory is gone. These brackets are designed to hold a 8-12lb sledge hammer both hanging or supported as a pocket.
- PAC K5025-N & K5025-O Cutters Edge Mounting Kits have been replaced by P/N K5025, Vent Saw Mounting Kit. This kit uses four (4) universal mounts to secure the saw. Available in 3 colors.

PRICE CHANGES

- PAC is proud to have been able to hold prices for six years while still offering a full warranty. There have been some increases as of March 2017. Contact PAC for the latest price list.
